About

Detail-oriented and ambitious iOS Developer with first-class honours in Computer Science. Skilled in developing and publishing high-quality mobile applications using Swift and SwiftUI, with expertise in CloudKit and Firebase backend integration. Passionate about creating user-centric apps that deliver seamless functionality and exceptional user experiences. I am committed to continuous learning and leveraging the latest technologies to build impactful and innovative mobile solutions.

Education

BSc Computer Science (First-Class Honours)
University of Westminster
09/2021 - 08/2024
London

Experience

Freelance iOS Developer

Independent Projects:
- Designed, developed and published iOS Applications to the App Store, focusing on user-centric features and seamless functionality
- Integrated Firebase for real-time database management and backend support in applications like BMI Buddy and Vocabio, ensuring secure and scalable performance
- Utilised CloudKit for dynamic data synchronisation in OPBR Companion, which received a 5-star App Store rating and positive user feedback

- Demonstrated expertise in Swift, UIKit, and SwiftUI to create intuitive interfaces and deliver exceptional user experiences

Key Projects:
- **BMI Buddy**: Help users track and manage their BMI effectively with Firebase integration
- **Vocabio**: A dictionary app that allows users to add their own words, definitions, and examples, enabling younger generations to share slang and helping older users understand modern terminology
- **OPBR Companion**: A strategy guide app for One Piece Bounty Rush players, leveraging CloudKit for real-time data updates and earning high user praise

Sales Associate / Pharmacist
Eclipse Pharmacy, London - 2024:
- Delivered exceptional customer service by assisting with inquiries and resolving issues promptly, contributing to a positive shopping experience
- Streamlines delivery management processes, ensuring timely stocking and organisation of inventory
- Maintained an efficient workspace by pricing items accurately, cleaning shelves, and de-labeling expired prescriptions to adhere to pharmacy standards
- Supported prescription distribution, ensuring accuracy and compliance with regulatory requirements

Sales Associate
Pill Box Pharmacy, London - 2018:
- Enhanced customer satisfaction by addressing inquiries and delivering parcels with efficiency and professionalism
- Assisted pharmacists with prescription preparation and inventory management, maintaining operational accuracy
- Contributed to a clean and organised workspace by stocking and sanitising shelves, ensuring a safe and welcoming environment for customers
- Built strong relationships with customers through effective communication and reliable service

Skills

- **Mobile Development:** Proficient in Swift and SwiftUI; experience in App Store publishing and optimising
- **Backend Integration:** Skilled in integrating Firebase for real-time database management and CloudKit for dynamic data synchronisation
- **Programming Expertise:** Strong command of Python, Java, HTML, and CSS, with a focus on problem-solving and clean code practices
- **Version Control:** Experienced with GitHub for code management and project documentation
- Analytical Skills: Strong mathematical aptitude and proven ability to debug and test app
- **Design and User Experience:** Familiar with UI/UX design principles to create intuitive and engaging applications
- **Digital Marketing:** Knowledgeable in social media strategies, web analytics, and user engagement techniques
- **Soft Skills:** Excellent communication, teamwork, and customer service abilities, complemented by attention to detail and effective listening
- **Hobbies and Interests:**
  - **Anime & Shows:** Enthusiast of storytelling through diverse media, fostering creativity and perspective
  - **Gaming:** Passionate about gameplay mechanics, strategy development, and user engagement in mobile games
  - **Badminton:** Demonstrates teamwork, agility and perseverance on and off the court
  - **Movies:** Appreciation for visual design and impactful narratives
