PROFESSIONAL SUMMARY

Driven software developer, passionate about creating impactful applications through innovative technology and user-centric design. An accomplished professional with a first-class honours degree in computer science who is experienced in developing high-quality software solutions across various platforms. I am actively seeking to join a company as a software developer to contribute to transformative projects and enhance user engagement.

EXPERIENCE

Client Projects
RevuLink   May 2025-May 2025, Walthamstow, UK
- Worked closely with the client (Jake Lazaros) to implement features tailored to his needs, maintaining clear communication throughout via WhatsApp
- Developed the app using Swift and embedded the existing RevuLink website using WebView for seamless browsing within the iOS environment
- Added an onboarding intro view with a promotional video and a custom splash screen to enhance user experience and ensure approval from Apple's App Review team
- Implemented a polished launch animation to improve visual appeal and comply with App Store guidelines for apps using WebViews
- Overcame deployment challenges by aligning the app's functionality with Apple's requirements while preserving the original vision of the client
- https://apps.apple.com/gb/app/revulink/id6745518061

Personal Projects
OPBR Companion (Website)   March 2025-March 2025, Walthamstow, UK
- Built using React and TypeScript for a modern, responsive design that ensures optimal viewing on various devices
- Utilised Supabase for dynamic content management, enabling seamless updates and efficient data retrieval
- Designed and structured the application with component-based architecture, promoting reusability and maintainability of code
- Used Tailwind CSS for styling, allowing for rapid development and consistent design across the application
- https://opbr-companion.netlify.app/

OPBR Companion (iOS)   November 2024-March 2025, Walthamstow, UK
- Developed iOS app using Swift and SwiftUI, creating a user-friendly interface optimised for mobile devices
- Initially built with CloudKit for backend data management, enabling secure storage and synchronisation of user data
- Transitioned to Supabase for the backend to ensure consistency and compatibility with the website, facilitating seamless data integration
- Utilised MVVM architecture to promote code reusability and maintainability
- Major improvements made since the initial launch, based on user feedback and evolving project goals
- Achieving positive user feedback, including a 5-star rating on the App Store, contributing to the overall success of the OPBR Companion project
- https://apps.apple.com/gb/app/opbr-companion/id6737994116

Canvas Connect   2023-2024, University of Westminster
- Developed Canvas Connect as a final year project at university, a social media application designed for artists to share their work and create an online portfolio easily
- Built using Swift and SwiftUI for an engaging and intuitive user interface optimised for iOS devices
- Implemented functionality to automatically assign a watermark to artists' work upon upload, protecting their creations from theft and ensuring proper attribution
- Utilised Firebase to handle authentication, data storage, and retrieval, ensuring seamless user account management and media uploads
- Conducted thorough testing and debugging to ensure reliability and performance, delivering a smooth and secure user experience
- Demo Video

Seasonal Staff
JD Sports   December 2024-January 2025, Westfield Stratford, UK
- Efficiently scanned and dispatched footwear to the shop floor, ensuring timely restocking and contributing to the company's annual revenue of £10.54 billion.
- Organised and updated stockroom shelves, improving accuracy within JD Sports' extensive network of stores
- Priced and labelled footwear, maintaining consistent pricing strategies across the company's diverse product range
- Refilled stockroom shelves with footwear, ensuring efficient inventory management and aligning with JD Sports' commitment to delivering best-in-class operations
- Received positive feedback for exceptional teamwork, contributing to the company's vision to "Connect globally, inspire locally, empower individually."

Sales Associate/Pharmacist Assistant (Work Experience)
Eclipse Pharmacy   August 2024-August 2024, High St, London E17 7JH
- Provided exceptional customer service by addressing inquiries and resolving issues efficiently, ensuring a seamless shopping experience
- Optimised delivery management processes, ensuring timely stocking and organisation of inventory
- Maintained a well-organised workspace by accurately pricing items, cleaning shelves, and removing expired prescriptions to comply with pharmacy standards
- Assisted with prescription distributions, ensuring accuracy and adherence to regulatory requirements

Sales Associate (Work Experience)
Pill Box Pharmacy   June 2018-June 2018, 23 St James St, London E17 7PJ
- Enhanced customer satisfaction by promptly addressing inquiries and efficiently managing parcel deliveries
- Maintained a clean and organised workspace by restocking and sanitising shelves, creating a safe and welcoming environment
- Built strong relationships with customers through clear communication and reliable service, fostering trust and loyalty

EDUCATION

Bachelor of Science with Computer Science with First Class Honours
University of Westminster
September 2021-August 2024, 115 New Cavendish St, London W1W 6UW

SKILLS

Technical Skills
- **Mobile Development:** Swift, SwiftUI, Kotlin
- **Web Development:** React, TypeScript, HTML, CSS, Tailwind CSS
- **Backend Integration:** Firebase, Supabase, CloudKit
- **Programming:** Java, Python
- **Version Control:** Git, GitHub
- **Debugging & Testing:** Strong analytical skills in debugging, testing, and optimising applications
- **UI/UX & Design Tools:** Used Canva to design applications during the design phase and create app previews; created ERDs using draw.io for database structure
- **Software Development Methodologies:** Expertise following Waterfall and Agile methodologies
- **Digital Marketing:** Knowledge of social media strategies, web analytics, and user engagement techniques

Soft Skills
- Effective communication, teamwork, and problem-solving
- Detail-oriented, adaptable, and an active listener

Languages
- Fluent in English and Urdu
